

# GeneMedi's SARS-CoV-2 NP Antibodies are validated to detect the NP antigen of the Omicron variant in ELISA

The Omicron variant aka B.1.1.529 lineage is by far the most divergent SARS-CoV-2 variant. This variant has a large number of mutations, some of which are concerning. It is critical to re-evaluate the effectiveness of the current diagnostics and therapeutics against this new variant. GeneMedi has developed recombinant Omicron Nucleocapsid protein (NP) and validated our NP antibodies (Nab) against the Omicron NP antigen.

Our R&D department found that our Nab have a large linear range and good sensitivity against the Omicron NP antigen, which are similarly against the SARS-CoV-2 WT. We tested all antibodies and found that the [Nab006](#) and [Nab003](#) represent the best ED50. Below is the result of GeneMedi's SARS-CoV2 Nab validation with NP antigen in ELISA. I highly recommend them to you.

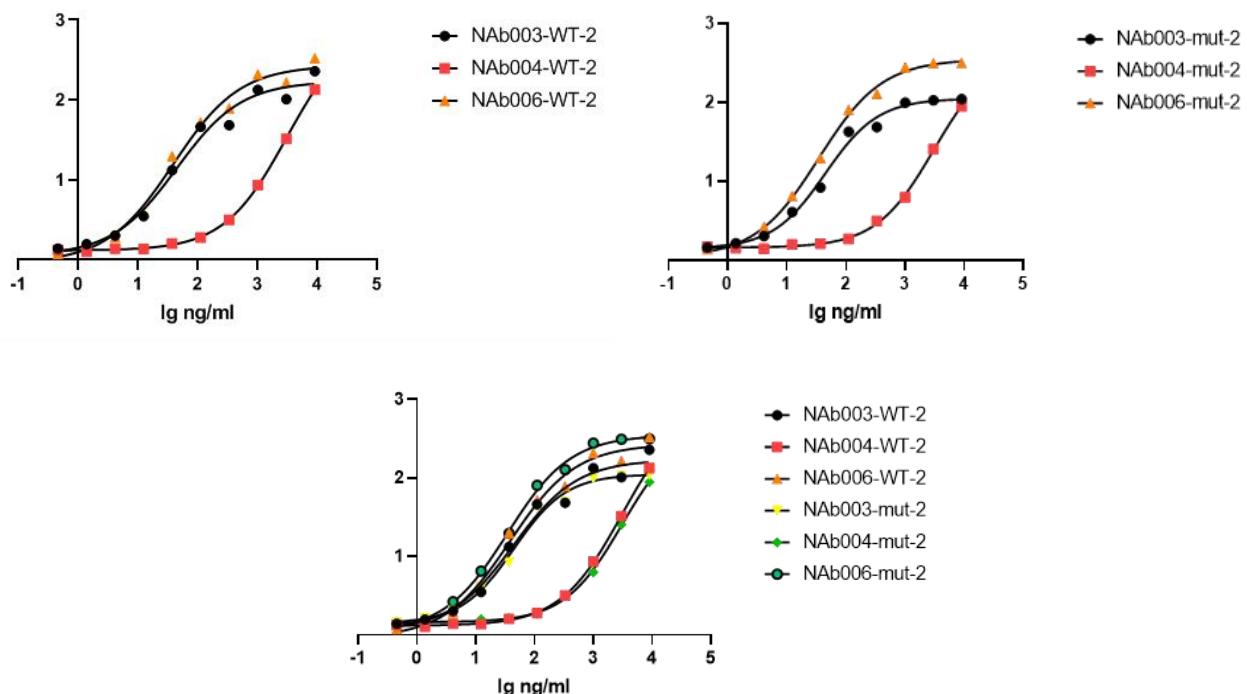

Figure 1. GeneMedi's SARS-CoV2 Nucleocapsid protein (NP) antibody (Nab) are validated to detect the NP antigen of SARS-CoV-2 WT ([GMP-V-2019nCoV-N002](#)) or the mutant Omicron variant ([GMP-V-2019nCoV-N003](#)) in ELISA.

| NP antibody (Nab) | ED50 (ng/ml)       | ED50 (ng/ml)         |
|-------------------|--------------------|----------------------|
|                   | NP (SARS-COV-2 WT) | NP (Omicron variant) |
| <u>Nab003</u>     | <b>43.97</b>       | <b>44.55</b>         |
| <u>Nab005</u>     | 220.9              | 528.5                |
| <u>Nab006</u>     | <b>38.65</b>       | <b>34.58</b>         |
| <u>Nab007</u>     | 319                | 121.2                |
| <u>Nab008</u>     | 51.38              | 72.15                |

Table 1. ED50 of Nab validation with NP antigen (SARS-COV-2 WT / Omicron variant) in ELISA.  
The Nab003 and Nab006 represent the most recommended ED50.

## Product list

Below is the product list for our SARS-CoV2 Nucleocapsid protein (NP) antibody (Nab) and NP antigen. If you want to order, please click the link and send email to [hqq@genemedi.net](mailto:hqq@genemedi.net).

| Cat No.                | Products Name  | Order link  |
|------------------------|--|---|
| GMP-V-2019nCoV -NAb003 | Anti-2019-nCoV NP mouse monoclonal antibody(mAb)   | <a href="https://www.genemedi.net/i/2019ncov-nab003">https://www.genemedi.net/i/2019ncov-nab003</a> |
| GMP-V-2019nCoV -NAb004 | Anti-2019-nCoV NP mouse monoclonal antibody(mAb)   | <a href="https://www.genemedi.net/i/2019ncov-nab004">https://www.genemedi.net/i/2019ncov-nab004</a> |
| GMP-V-2019nCoV -NAb005 | Anti-2019-nCoV NP human scFv-Fc antibody   | <a href="https://www.genemedi.net/i/2019ncov-nab005">https://www.genemedi.net/i/2019ncov-nab005</a> |
| GMP-V-2019nCoV -NAb006 | Anti-2019-nCoV NP Nanobody-Fc antibody   | <a href="https://www.genemedi.net/i/2019ncov-nab006">https://www.genemedi.net/i/2019ncov-nab006</a> |
| GMP-V-2019nCoV -NAb007 | Anti-2019-nCoV NP human scFv-Fc antibody   | <a href="https://www.genemedi.net/i/2019ncov-nab007">https://www.genemedi.net/i/2019ncov-nab007</a> |
| GMP-V-2019nCoV -NAb008 | Anti-2019-nCoV NP human monoclonal antibody  | <a href="https://www.genemedi.net/i/2019ncov-nab008">https://www.genemedi.net/i/2019ncov-nab008</a> |
| GMP-V-2019nCoV -N002   | Recombinant 2019-nCoV(SARS-CoV-2) Nucleocapsid Protein (N protein,N-His tag)                               | <a href="https://www.genemedi.net/i/2019ncov-n002">https://www.genemedi.net/i/2019ncov-n002</a>     |
| GMP-V-2019nCoV -N003   | Recombinant 2019-nCoV(SARS-CoV-2) Omicron variant aka B.1.1.529 Nucleocapsid Protein (N protein,N-His tag) | <a href="https://www.genemedi.net/i/2019ncov-n003">https://www.genemedi.net/i/2019ncov-n003</a>     |

# About GeneMedi

## GeneMedi

GeneMedi is a BioTech company with strong expertise in Gene&Biogitics discovery, artificial design, and State-of-the-Art Manufacturing.

Our scientists and experts serve global clients in biologics discovery including antibodies, recombinant protein and multiple types of viral vectors. GeneMedi offers Pre-made and custom made recombinant protein and antibodies for drug discovery and diagnostic ingredients.

GeneMedi help scientists from academic to industry in vectors optimization, cell line development, scalable production, process development and technology transfer. GeneMedi GeneTherapy center also help in gene therapy&gene editing discovery and development.

## Our Responsibility

1. Pre-made and custom-made recombinant proteins (Antibodies, Enzymes, Membrane protein, Factors and other antigens) for drug discovery and diagnostics ingredients, high quality, bulk in stock.
2. Membrane Protein & antibodies artificial design, discovery and State-of-the-Art manufacturing.
3. High quality, scalable, State-of-the-Art Manufacturing in gene therapy vectors including adeno associated virus (AAV) vector, lentivirus vector and adenovirus vector.
4. AAV gene therapy innovation: AAV capsid evolution and novel AAV generation for next-generation vector of gene therapy
